COE 3DY4 Project Disclosure Form

Group #: 4

- All team members agree to disclose only the genuine works, both completed and in-progress, on to the Git Repository for 3DY4 project evaluations.

- All team members have credited all non-original components in the project through proper references and credits in the project report. Examples of non-original works included code snippets provided in lectures, model codes for prototyping validation, third-party libraries used to support your project development, etc.

- All team members have reported their contributions to the project in the Work Breakdown sheet with precision and truthfulness.

- All team members acknowledge that, despite their project works are disclosed as a collective team deliverable, each individual member may be subject to individual evaluations, and may receive different grading results.
